

## ST LEONARD'S CHURCHYARD TREE TRAIL

Can you match the leaves pictured below with the letters beside the tree trail trees?  
(Try to find the right trees without using the other tree trail sheet!)

| letter | Tree        | Leaf                                                                                | letter | Tree                          | Leaf                                                                                  |
|--------|-------------|-------------------------------------------------------------------------------------|--------|-------------------------------|---------------------------------------------------------------------------------------|
|        | Ash         |    |        | Persian Iron wood tree        |    |
|        | Beech       |    |        | London Plane                  |    |
|        | Cherry      |   |        | Oak                           |   |
|        | Common lime |  |        | Paper bark maple (non-native) |  |
|        | Crab apple  |  |        | Elder                         |  |

| letter | Tree          | Leaf                                                                               | letter | Tree     | Leaf                                                                                |
|--------|---------------|------------------------------------------------------------------------------------|--------|----------|-------------------------------------------------------------------------------------|
|        | Holly         |   |        | Sycamore |  |
|        | Rowan         |   |        | Yew      |  |
|        | Corsican Pine |  |        |          |                                                                                     |
